

## HSU Values

- The Health Services Union is an organisation that has a membership demographic that is broad with respect to social, political, industrial religious and cultural composition.
- The Health Services Union is committed to supporting and fighting for Public Health workers, Aged Care workers, Private Health workers Ambulance workers, Paramedics, and their communities.
- The Health Services Union supports diversity, collectivism, equality and mutual respect within the Union, members, and their communities.
- The Health Services Union supports the diverse interests of our members.
- The Health Services Union supports the inclusion of all people, opposed to exclusion or segregation.
- The Health Services Union supports a sustainable future for our members and their communities.
- The Health Services Union supports promoting wages growth to eliminate financial hardship within the Unions membership and their communities.
- The Health Services Union supports a contribution to social, welfare and cultural initiatives that will enhance the lives of HSU members and their communities.
- The Health Services Union is committed to transparent, multi layered governance, finance and decision-making processes.
- The Health Services Union acknowledge the contribution that many members have made since birth of the Union in 1911 that have given the union the opportunity to contribute to the future.
- The Health Services Union acknowledge the Indigenous owners of the land on which we live and work.
