

Some smaller, but no less critical, services and staff have been moved. A detailed list will be distributed when finalised, however phone numbers have not changed, and they can be contacted in the usual manner.

A small number of units will remain in location during the works, including Cardiac Cath Lab, C8 and C5 Intensive Care / Coronary Care.

The entrance to the Library during office hours may be impacted by the operation of the relocated Fever Clinic. Alternate access to the Library is currently under review, and further information will be provided.

There will areas, such as fire exits and some corridors, that will be shared with the builders. The builders understand they are working in a live hospital environment and every effort will be made to manage noise, vibration, dust and disruption and respond promptly to any concerns or issues.

For more information you may speak with your NUM or HoD, as regular updates are provided at the monthly Heads of Department Meetings. NUMs and HoDs may contact Mary-Louise McFadzean, Change Manager, Lismore Base Hospital Redevelopment on 0438 122 179. The Redevelopment Newsletter will be recommencing to provide regular information.

Thank you everyone for your patience and co-operation in this important next stage of LBH Redevelopment.

A handwritten signature in black ink, appearing to read 'Ian Hatton', written over a horizontal line.
