

8 April 2024

Mr Gerard Hayes
Health Services Union
Level 2, 109 Pitt Street
Sydney NSW 2000

Dear Gerard,

NSW Health Pathology – Introduction of a new shift time, Chemistry Department.

This letter is to advise you that NSW Health Pathology Gosford is proposing the introduction of a new shift within our Chemistry department. We consider this change to improve patient service during Renal week due to the increase in workload presenting to the laboratory 17:00.

The current roster operates 24/7. We have proposed the introduction of a 10am – 18:30 shift Monday to Friday.

After appropriate consultation with our team members has been undertaken, it is intended that these changes will occur effective from 1 May 2024.

The following Has been undertaken to facilitate this change:

- Consultation with staff regarding the changes to rostering and new operational requirements had occurred;
- A revision of the rostering requirements to accommodate the service needs and changes;
- The Chemistry staff members have reviewed the roster with the proposed shift and agreed with the proposal.

Should you have any questions in relation to these changes, please do not hesitate to contact me.

Yours sincerely

Ann-Louise Wetherall
Senior Medical Laboratory Scientist
NSW Health Pathology, Gosford
