Dear Mr Hayes,

Re: Technology Services – Workplace Change

I am writing to formally notify you that eHealth NSW (eHealth) Service Delivery is proposing the disbandment of the group Systems Design and Management (SDM) within Technology Services

The decision has come about post review of the Operating Model within Technology Services. eHealth NSW anticipate the change will lead to improved and efficient operations as well as the creation of new opportunities as the work progresses across Technology Services.

This proposal will change staff reporting lines but has no change in the core duties performed by respective employees. Employee's Position Description will be modified to reflect new reporting lines. No existing positions are expected to be made redundant or lost, however, eHealth envision a seamless transition to the new business units with Technology Services

An initial informal consultation briefing was completed during February to include staff in the discussion and encourage staff to provide feedback. A formal meeting will be scheduled on the 1 April 2022, followed by a two-week consultation period. The anticipated date for implementation is 25 April 2022.

If you would like to schedule a discussion please contact Michelle Quinn, HR Business Partner, People & Culture HealthShare NSW on 0400 685 810 or via email (michelle.quinn2@health.nsw.gov.au). Alternatively, you may respond to these proposed changes by addressing any comments in writing by 24, March 2022.

Yours sincerely,

A handwritten signature in black ink that reads 'M Kime'.

Michael Kime
Associate Director – Technology Services
Technology and Customer Support Services
Service Delivery eHealth NSW
