**Re: Change in reporting lines - Pharmacy**

Dear Mr Hayes

I write confirming the intention of the Northern NSW Local Health District (NNSWLHD) to consult with its employees on a proposed altering of the reporting lines within Pharmacy.

The proposed change to reporting lines will not affect any currently allocated resources within Pharmacy. For your convenience I have attached the current reporting line structure and the proposed reporting line structure within Pharmacy. There are no other changes proposed that could affect an employee within Pharmacy other than who their direct line manager will be.

NNSWLHD will undertake consultation with employees commencing Monday 19<sup>th</sup> June. Should the Health Services Union wish to be consulted further on the changes to reporting lines please contact Steve Klaassen Human Resource Manager at 0457 630 118 for more information.

Yours sincerely

**Joe McDonald**  
**A/Director Clinical Operations**
