Dear Mr Hayes,

Re: Consultation in relation to the Clinical Operations proposed structure at the Sydney Children's Hospitals Network.

Please find attached the consultation document for the Clinical Operations proposed structure at the Sydney Children's Hospitals Network.

The document has been provided to staff and outlines a proposed structure to provide a consistent approach to clinical operations across the Network. It provides a structure and way of working that strengthens, promotes and enables local site management and leadership, embedding a clinical stream model for the Network to support an enhanced approach to clinical operations.

The structure aims to create better alignment, enhance accountability and responsibility and improve clarity of roles and resources between site leadership and Network clinical streams. Over recent months I have met with site lead s, Clinical Program Directors, Heads of Department and other staff to discuss what is working well and opportunities for clinical operations across the Network. This feedback has assisted with development of the proposed structure and revised approach for clinical operations.

Staff have been requested to provide formal feedback by close of business 7 June 2023. If you could provide any feedback regarding the proposed structure also by close of business 7 June 2023.

If you have any questions or would like to arrange a meeting to discuss the proposed structure please email SCHN-EDCO@health.nsw.gov.au.

Yours sincerely,

Dr Joanne Ging
Executive Director Clinical Operations

Date: 17 May 2023

Attachment: Consultation Document - Proposed Clinical Operations structure at the Sydney Children's Hospitals Network.
