

Pacemakers: What Paramedics Need to Know

This webinar will cover everything you need to know about pacemakers, including exploring the types of pacemakers used and a look at indications for each. We will review their basic components and functions, then dive into troubleshooting ECGs and common complications from the paramedic perspective.

Delivered by an expert team of cardiac physiologists along with experienced paramedic, Jeremy Kuiper, this event is one not to be missed

Date: 27 July 2022

Time: 19:00 - 20:00 AEST

Online

Presented by: Jeremy Kuiper,
Natasha Saad, Kenny Ng and
Mitchell Cowan
