

Strategies to maximise the preceptorship and student experience

This session will address the common pitfalls paramedic students face during clinical placement, as well as highlight the attitudes and skills students need to establish so that they flourish into independent, confident practitioners. It will help those supporting students to develop their knowledge to better achieve outcomes for students. This webinar is for students, paramedics and preceptors alike, as well as those who have a vested interest in optimising students' placement experiences.

Date:
19 July 2023

Time:
15:30 - 16:30 AEST

Online Interactive Webinar
Participating live will count towards
one hour of interactive CPD.
