Population Health Division, ACT Health Directorate - Accommodation Review – Howard Florey Centenary House (HFCH) Holder – Feedback and Final Outcomes

ACT Health Directorate (ACTHD) is committed to effective consultation with employees and their representatives and participation in decisions in matters that affect their employment.

On 7 March 2024, you received communication from Dr Kerryn Coleman, Chief Health Officer, Population Health Division advising that a consultation process was commencing in relation to the review of HFCH accommodation. The consultation period ended on 22 March 2024 and a review of feedback has been completed with an outcome presented to staff.

I am writing in accordance with the consultation provisions within ACT Public Sector Enterprise Agreements to advise of consultation.

Please find attached the PHD feedback paper which outlines next steps, with a revised plan layout for the building workstations. The aim is to have new arrangements in place by early May 2024.

Yours sincerely
