STAFFING AT TWEED!

TIME FOR TWEED MANAGEMENT TO LISTEN!

With Tweed Valley Hospital set to open on 14 May, management have REFUSED to listen to workers' concerns about the increasing safety risks due to under staffing.

Three HSU members and numerous nurses have already been assaulted, but management refuses to listen!

On Tuesday, 23 April HSU members met and voted to enact bans from TOMORROW morning (Wednesday). HSU members also call on nurses to join us and send management a lesson.
