Dear Gerard

Re: Additional Security Staff added to current roster pattern

Central Coast Local Health District (the District) wishes to advise the HSU of a change to the roster for Wyong Security Staff. These staff members are all classified as shift workers.

1. The current security roster pattern will remain the same, except for the addition of an extra staff member on each shift. This growth in permanent full-time security positions is in response to the increase in the footprint of Wyong Hospital site.

This notification is made under the *Clause 1 and 2 of the Health Employees Conditions of Employment (State) Award*.

Consultation has taken place with the employees impacted and the roster changes are expected to officially commence when the new Wyong Hospital Building is handed over to the district. This date remains unknown due to the COVID-19 crisis.

There will be no changes to the conditions of employment or rate of pay as a result of this move.
