

Healthscope Enterprise Agreement Update

Dear Member,

The Healthscope Agreement is close to being approved by the Fair Work Commission. Timelines for progression of applications for enterprise agreements have been much longer of late, as the Commission transitioned over to a different system last year.

The HSU pressed the employer to award the increases due, as soon as our members voted yes for the agreement. We were aware that delays were expected. Healthscope, however, decided to wait until the agreement is approved by FWC to pass on increases and backpay.

Understandably, this update is little comfort as it doesn't give a definite date. However, HSU members are assured that they will be notified as soon as the agreement is approved.

In unity,

Gerard Hayes
Secretary, HSU NSW/ACT
