

## Justice Health: Freshwater Unit Design, Forensic Hospital

Dear Member,

The HSU has received details of the design and floor plan for the new Freshwater Unit in the Forensic Hospital. Please see attachments.

Members are requested to provide comments or issues by 20 September 2018 to HSU Organiser Denise O'Shaughnessy at [denise.oshaughnessy@hsu.asn.au](mailto:denise.oshaughnessy@hsu.asn.au).

In unity,

Gerard Hayes  
Secretary, HSU NSW/ACT/QLD

HPRM:DG80038/18

Mr Gerard Hayes

Dear Mr Hayes

**Re: Freshwater Unit Design and Development, Forensic Hospital**

As previously advised work has been underway to develop a new Freshwater Unit in the Forensic Hospital.

The project managers and architects have been working with hospital staff to develop the design of the unit based on the Freshwater Unit Statement of Purpose (formerly known as the Model of care).

The staff user group participating in the design of the unit has been comprised of frontline nursing, allied health and medical staff. The staff user group has also included Health Safety Representatives.

I am pleased to be able to provide you a copy of the Freshwater site plan, floor plan, and external design and invite you to review and provide comment on the design by 20 September 2018 via email to [freshwater.development@justicehealth.nsw.gov.au](mailto:freshwater.development@justicehealth.nsw.gov.au).

I note that previously you have requested information on the staff profile and operational policies and procedures. The Network will produce subsequent documents in respect of the staff profile and operational policies and procedures. The Network will continue to consult with you and our staff throughout the development of that additional information.

This is an exciting expansion of the hospital and an important staff and patient safety initiative as we look to meet the developing needs of our patients.

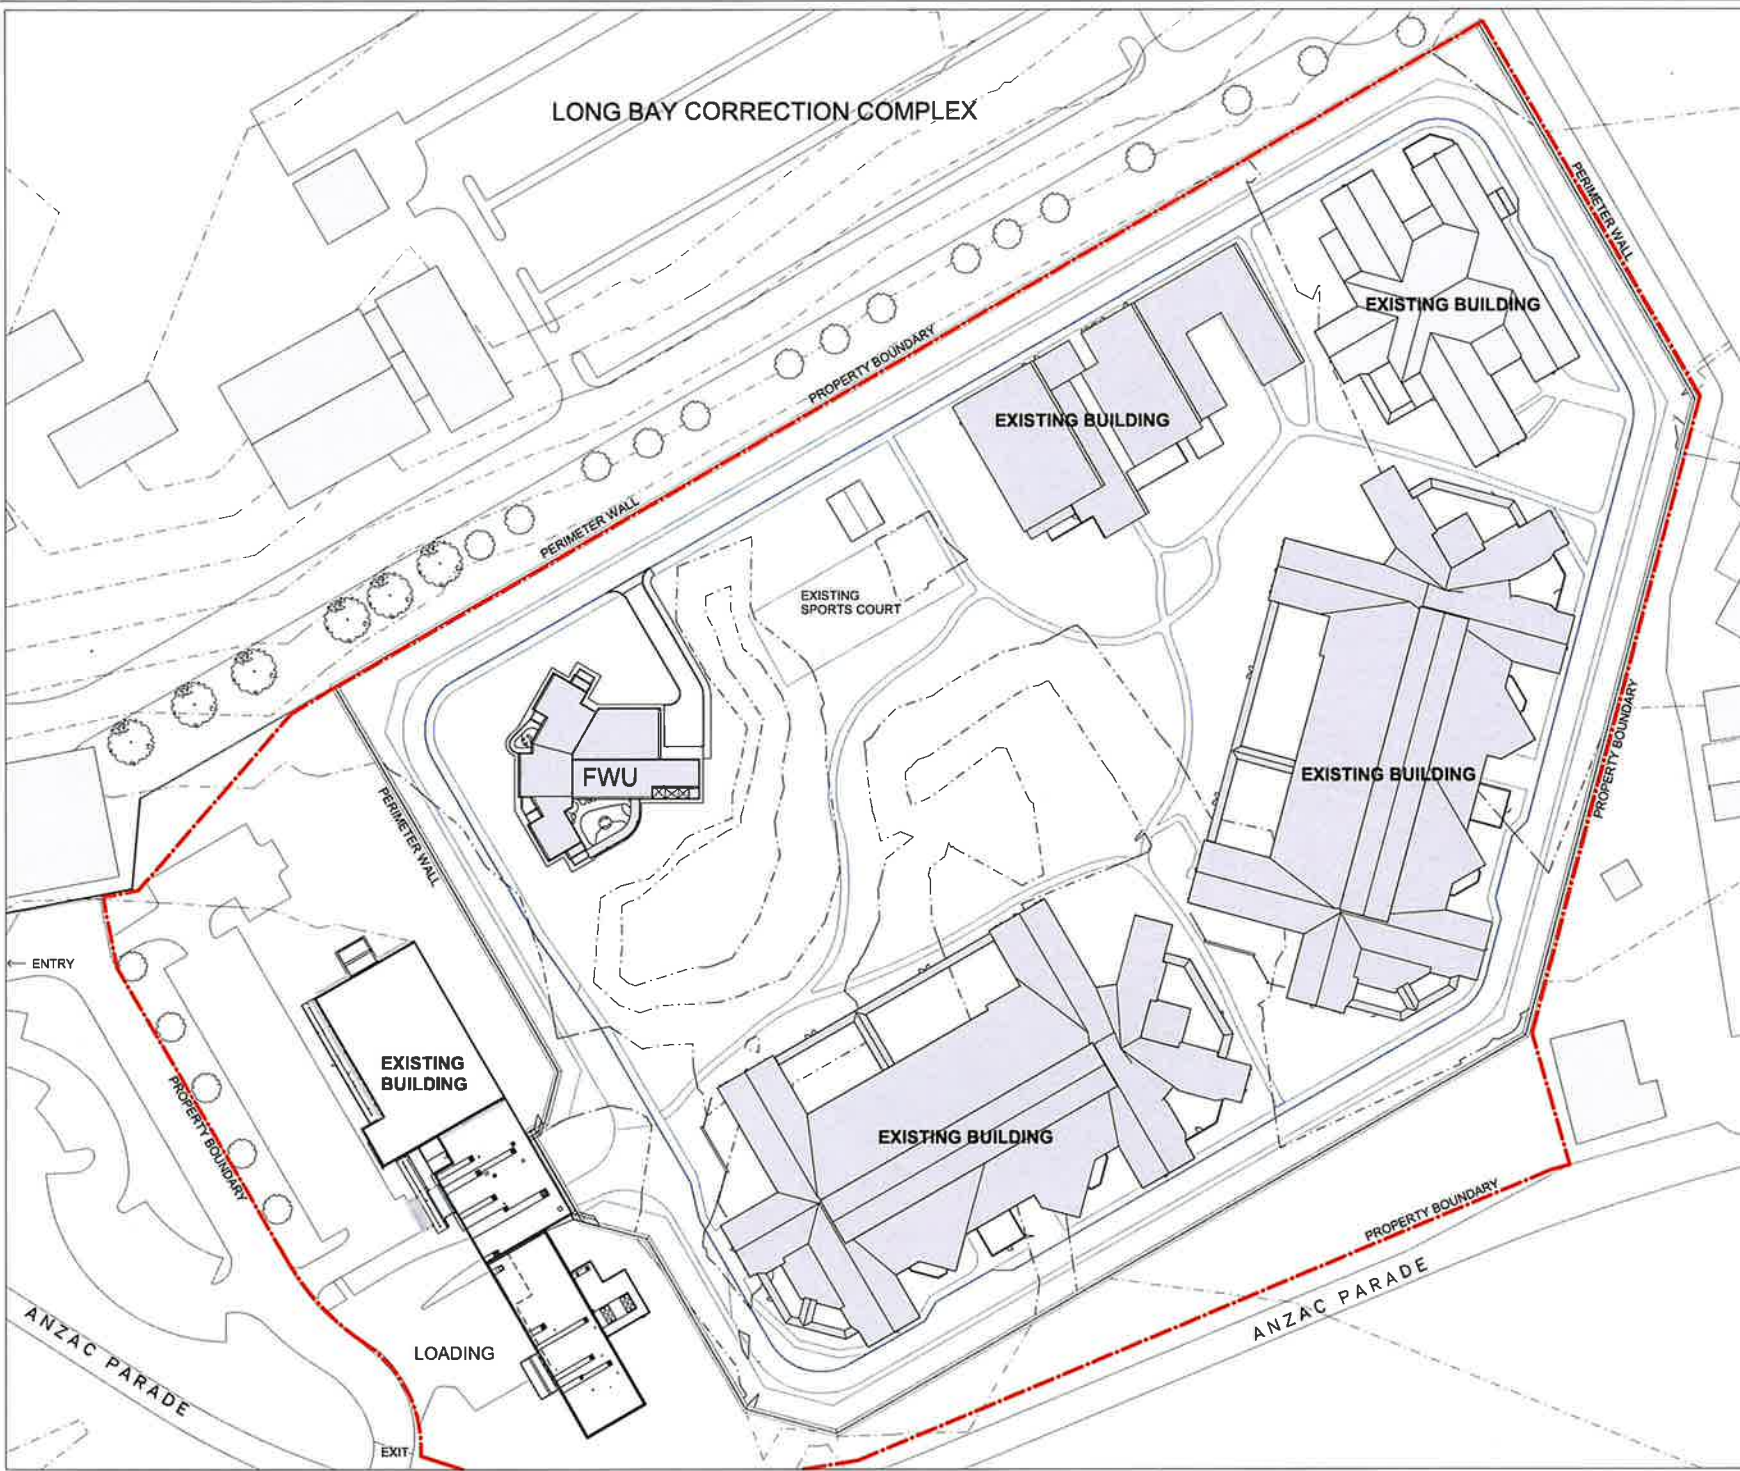

Should you require any further information please contact Damien Eggleton, Co-Director Forensic Mental Health on 9700 3035.

Yours sincerely

Gary Forrest
