

RNSH HealthShare: Sick Leave Concerns

Dear Member,

Recently the HSU were made aware through our delegates that management had issued a directive that they would place members on sick leave certificates should they take sick leave between 12 September 2018 and 12 November 2018.

This directive was clearly in breach of the NSW Health Policy and an urgent meeting was organised with management. As a result of this meeting, the original directive has now been withdrawn and replaced with a new directive that now complies with NSW Health Policy.

Should any members believe they are being unfairly targeted through the inappropriate use of the Sick Leave Policy, they should contact the HSU as soon as possible.

In unity,

Gerard Hayes
Secretary, HSU NSW/ACT/QLD
