

HNELHD: Security staffing and the importance of recording incidents

Dear Member,

Following from HSU's recent visit and discussions regarding the security review which is currently underway across the HNELHD, the HSU would like to remind our members how important it is to fill out proper reports such as security logs and using the IIMS system to record all security related events such as 'Code Black', guarding patients, fire and duress alarms.

In our experience, this is the information the employer will rely upon when deciding whether or not to increase security numbers across the site. HSU members already know that there is a shortage of security staff, but without this vital evidence to support the Union's claims for more staff, it becomes a tough argument to make.

If you have any concerns or queries in regard to staffing, please get in touch with your organiser Matthew Ramsay on 0419 553 105 or matthew.ramsay@hsu.asn.au.

In unity,

Gerard Hayes
Secretary, HSU NSW/ACT/QLD
