

## Security inquiry coming to HNELHD sites

Dear Member,

Back in February, Peter Anderson, ex-NSW Police Minister, compiled an interim report into Security in NSW Hospitals. Following that interim report, he has been re-engaged by the Ministry of Health and Hunter New England Local Health District to further investigate security into hospitals.

As part of this process, Mr. Anderson is making the following visits to hospitals:

**Wednesday 8 May, morning:** John Hunter Hospital, and  
**afternoon:** Calvary Mater Newcastle Hospital.

Please note that this process is separate to the current security review being undertaken by HNELHD.

The HSU strongly encourages members to engage with Mr. Anderson regarding security as a whole in hospitals, and to speak openly about what affects you in relation to security at your worksite. The details of any further visits will be related to members as soon as they are shared with the HSU.

In unity,

Gerard Hayes  
Secretary, HSU NSW/ACT/QLD
