

Statewide Delegates Meeting 10 Aug Next step in safety campaign

Dear Member,

Last Thursday, we walked off the job around the state to make a point: **Our health facilities aren't safe anymore, and the NSW Government needs to take action to fix the problem.** Your message was heard loud and wide.

This is not the end of the HSU Safe Hospitals Campaign, **but just the beginning.**

We need to maintain the momentum. I wish to invite all members not on duty to a meeting at **Sydney Trades Hall this Saturday 10 August 2019 at 11am** to discuss the next stage of the campaign. For those wishing to attend, [please click here to register](#).

We have also launched the [HSU Violent Incident Reporting tool](#). You can log the details of any workplace incident and even upload images. These reports will help to pile the pressure on the Government to take action.

As the pressure built last week, the Government agreed to a trial at Gosford and Wyong Hospitals with significant extra resources. This small step is not enough, but we will use the results to further advance our cause.

In unity,

Gerard Hayes
Secretary, HSU NSW/ACT/QLD
