

Reproductive Health Care Reform Bill

Dear Member,

I have recently been asked to publicly support a bill decriminalising abortion in New South Wales that is currently before the NSW Parliament. I have agreed to do this because I do not believe the Government should criminally prosecute anyone for making this incredibly difficult decision.

I appreciate that members will have a variety of views and I want to stress I do not consider that I am speaking on behalf of all HSU members on this issue.

I am writing to you in the interests of transparency. It is my intention to take this position publicly, but I want you to hear it from me, not in the media.

If you have any views on this issue you would like to share, I would like to hear from you.

Please take the time to fill in the survey below if you wish
