

## Huge HSU PTO Win

Dear Member,

Following on from HealthShare's email to staff, it is now looking like we are on the home stretch of the "Flynn" Crib Away case.

Whilst delegates are reluctant to fully let their guards down until pay hits your pockets, we extend a huge congratulations to all HSU members who worked tirelessly to win the pay you deserve. Without the strength of your resolve and your ability to stand up for yourselves and your colleagues, this would not have been possible.

There were immense sacrifices made by all members over three long years as management and Treasury tested your dedication to this fight. It has been nothing short of a marathon battle but one with a result that is a testament to the power of a united workforce.

We want to pay special tribute to Neale Flynn whose courage and leadership was the driving force to take on this fight despite many voices of opposition. This case had many unfair legal hurdles in place that gave the Government an unfair advantage. There were also the two legal teams, one from the Ministry, the other from Treasury who played every tactic at their disposal to delay the outcome in the false hope that HSU PTOs would give in.

Well done Flynn, your efforts have led to significant improvements in your workmates' lives, both professionally and personally. We all miss you and rest in peace mate.

In unity,

Gerard Hayes  
Secretary, HSU NSW/ACT/QLD
