

HSU to undertake largest ever survey of CCLHD members

Dear Member,

You are invited to take part in the HSU's largest ever survey of members working in Central Coast Local Health District.

We know your time is valuable – but don't worry, our survey will only take a few minutes to complete. By completing the survey you are providing us with valuable information about what matters to you and the HSU membership which helps us plan future campaigns and activities.

Our survey asks you questions about issues which members have raised with us recently including staffing levels, workloads, filling of vacancies and workplace culture. There is also an opportunity for you to raise any other issues we could campaign on.

You can complete the survey using the below link:

<https://www.surveymonkey.com/r/cclhd-2019>

The statistical outcomes of the survey will be made public, but any personal information you choose to share will remain strictly confidential.

If you know someone who isn't yet a member of the HSU, forward them this newsletter and encourage them to join at the same time. Joining is just as easy as filling out the survey – either complete the [membership form here](#) or join online at www.hsu.asn.au/join.

In unity,

Gerard Hayes
Secretary, HSU NSW/ACT/QLD
