

## Flynnny gets paid, but with errors

Dear Member,

Most HealthShare PTOs have finally received their 3 x 2.5% increases and their crib away allowance (Flynnny) with all back pay this week.

Obviously, this is a cause for celebration particularly this close to Christmas.

However, we are receiving many reports of errors such as:

- Some PTOs who were receiving higher duties allowance did not receive their 2.5% increase back pay for the period of time they were acting in a higher position;
- There are examples of 40-pages of payslip without itemised pay – very difficult for members to confirm if their full entitlements have been paid;
- Glitch in the payroll system where some members were not paid the Flynnny at all;
- Some members believe they have not been paid a Flynnny for each occasion they cribbed away.

If you have any of the above or other concerns relating to the Flynnny and 2.5% increase back pay, contact our Industrial Officer Olivia Forsyth-Sells via email: [Olivia.Forsyth-Sells@hsu.asn.au](mailto:Olivia.Forsyth-Sells@hsu.asn.au). Please put 'Flynnny' in the subject line.

In unity,

Gerard Hayes  
Secretary, HSU NSW/ACT/QLD
