

## Southern NSW LHD Restructures Update

Dear Member,

I am writing to give you another update on the Southern NSW Restructures.

HSU representatives have again written to the LHD about timeframes for the creation of HSU-led working parties, telling the LHD:

1. That we can't commit to an "end date" for the working parties in January. For the working parties to be successful, they need to be given the opportunity to ask questions, request information and to make proposals, and to receive and consider responses. We can't commit to an end date in January when we don't know what the working parties will seek or propose, or when responses will be provided by the LHD.
2. That we propose that the first HSU working party be convened in the week beginning 13 January 2020 in order to account for staff leave and to provide sufficient notice to staff.

We will let you know when we receive a response from the LHD.

In unity,

Gerard Hayes  
Secretary, HSU NSW/ACT/QLD
