

## Blacktown General Services, Supply & Distribution Meeting

Dear Member,

Blacktown General Services, Supply and Distribution members attended a meeting with the HSU organiser and delegates on Tuesday 10 December to discuss the response from the BMDH General Manager to members' concerns around chronic understaffing (see [HSU newsletter 949](#)). In the meeting, members endorsed the following resolution:

*"Members are taking on board the General Manager's response and will take the remainder of the week to consider a response back to the General Manager. Another members' meeting for cleaners, linen officers, waste officers, patient services assistants, wardspersons, supply and distribution staff will be held on **Monday 16 December 2019 @ 5.45am on the grass lawn next to the bungalow (near loading dock)** to vote on options regarding the response letter from the General Manager."*

It's obvious that management have not taken members' chronic understaffing concerns seriously. The HSU encourages all members in General Services, Supply and Distribution to attend this very important meeting.

In unity,

Gerard Hayes  
Secretary, HSU NSW/ACT/QLD
