

Campbelltown Car Parking: Mass Members' Meeting Tuesday 18 February

Dear Member,

The campaign to fight the parking fee hike at Campbelltown Hospital is heating up.

Your union is asking all HSU members to attend a mass meeting, details below:

Tuesday the 18th of February

12:00pm and 1:00pm

Location: Macarthur Clinical School, Lecture Theatre 5

This is your chance to stand up to show that Campbelltown Hospital staff do not want this massive fee hike. This parking fee price hike will negatively impact the whole community!

Members will have an opportunity to discuss and decide on the next steps of this important campaign.

We are also approaching the time when campaign petitions need to be submitted to Parliament.

All HSU members are encouraged to print off the attached petition and to encourage family, friends and community members to sign the petition.

Please bring completed petitions to the mass members meeting.

The petitions will be submitted on Monday the 24th of February.

We can only fight strong campaigns with strong union membership. Encourage your workmates to join today, either online at www.hsu.asn.au/join or phone 1300 478 679.

In unity,

Gerard Hayes
Secretary, HSU NSW/ACT/QLD

To the Honourable the Speaker and Members of the Legislative Assembly of New South Wales.

Petition from the concerned residents of the Macarthur region and residents of the State of New South Wales.

We the community of the Macarthur ask for the State Hospital parking policy “*hospital car parking fees policy; campuses which are subject to car parking development (Pd2013_031)*” to be reviewed so it is more reflective of the realities of Campbelltown Hospital including socioeconomic status, access to public transport and lack of parking around the Hospital grounds

We call on the government to cap staff carpark fees at a maximum rate of \$10-00 per week, introduce first 3 hours free for public up to a daily maximum of \$10 at Campbelltown Hospital. Given the lack of access to public transport hubs and the lack of offsite parking availability at Campbelltown Hospital we request the fee be set at a reasonable rate to allow staff, patients & visitors on site parking access.
