

Royal Rehab: \$22 Driving Check

Dear Member,

The HSU has been made aware that Royal Rehab management are planning to implement a new yearly driving check policy for all staff who use a motor vehicle as a tool of trade. This policy involves a requirement for staff to pay for their own driver licence background checks every 3 years.

This means staff who use a motor vehicle as a tool of trade will be required to pay \$22 every 3 years to have their license background checked for management.

Members are advised to not make this payment until further discussions have been held.

The HSU opposes members having to pay for their own driver licence checks at the request of management.

HSU representatives are planning on setting up meetings with Royal Rehab management over the next fortnight to discuss these proposed new measures.

Please email your thoughts and feedback to HSU Organiser Thomas Gao via email thomas.gao@hsu.asn.au by Tuesday 18th February 2020.

The HSU will be doing workplace visits over the next fortnight to hear from members about these concerns and any issues that may come up.

It is important that we work together and deliver outcomes that are fair and constructive. If you know of workmates who are not yet union members, encourage them to join the union online at www.hsu.asn.au/join or by calling the Union on 1300 478 679.

In unity,

Gerard Hayes
Secretary, HSU NSW/ACT/QLD
